PROFILE SUMMARY

Final-year B.Tech (CSE) student at Lovely Professional University with an Open Minor in **Artificial Intelligence & Machine Learning**. Built **3 end-to-end AI/ML projects with live Streamlit Cloud deployments** — covering NLP, recommendation systems, and predictive modelling with demonstrated outcomes (~85–90% accuracy). Proficient in Python, Scikit-learn, FastAPI, and full deployment pipelines. **Certified by IIT Mandi, Infosys, and Intel**. Actively seeking **internship or entry-level roles in AI, ML, or Data Science** to deliver real-world impact.

SKILLS SUMMARY

- Languages:** Python, Java, C++, C
- Machine Learning:** Scikit-learn, Pandas, NumPy, NLP, TF-IDF, Cosine Similarity, Regression, Classification
- Web & Deployment:** Streamlit, FastAPI, HTML, CSS, JavaScript, Streamlit Cloud
- Databases & Tools:** MySQL, Git, GitHub, Power BI, Excel
- Core CS:** Data Structures & Algorithms, OOP, Problem Solving (200+ problems on LeetCode / GFG)

PROJECTS

- AI-Powered Vocational Course Recommender** | [GitHub](#) Aug 2025
- Built a content-based recommender mapping job-role skills to vocational courses across 29 Indian states.
 - Engineered a 20,000-record synthetic job-market dataset using Faker + Pandas for demand/salary simulation.
 - Applied TF-IDF + Cosine Similarity for ranking; deployed full-stack via Streamlit UI and FastAPI backend.
- AI Student Performance Predictor** | [GitHub](#) | [Live Demo](#) May 2026
- Trained ML models (Random Forest, SVM, Logistic Regression) achieving ~85% prediction accuracy on student grades.
 - Performed end-to-end preprocessing, feature engineering, and EDA on academic datasets using Pandas & Scikit-learn.
 - Compared multiple algorithms to select best-performing model; documented results with visualizations.
- AI Resume Screening & Job Matching System** | [GitHub](#) | [Live Demo](#) May 2026
- Built NLP pipeline to match resumes to job descriptions with ~90% keyword match accuracy using TF-IDF + Cosine Similarity.
 - Automated skill extraction and resume ranking; reduced manual HR screening effort by ~70% on test datasets.
 - Created keyword analysis module from unstructured resume text and job descriptions for intelligent shortlisting.

TRAINING & CERTIFICATIONS

- Mastering Java for Application Development** | [Certificate](#) Jun 2025
- AI and Machine Learning Using Python | [IIT Mandi](#) Apr 2024
- Generative AI & LLM | [Infosys Springboard](#) Aug 2025
- AI for All | [Intel & Skill India Digital Hub](#) Mar 2026

ACHIEVEMENTS

- Finalist — Paranox 2.0 Hackathon among top teams college-wide | NTIDM Sep 2025
- Solved 200+ DSA problems on LeetCode, GeeksforGeeks, and CodeStudio May 2025
- Attended 48-hour intensive Python workshop at IIT Mandi Apr 2024

EDUCATION

- Lovely Professional University** Punjab, India
B.Tech — Computer Science and Engineering | CGPA: 7.3 Aug 2023 – Present
Open Minor: Artificial Intelligence & Machine Learning
- Radiant International School** Patna, Bihar
Class XII — PCM: 81.4% | Class X: 78% 2019–2021 | 2018–2019
